1. System Requirements

FreeTEL System FTS-S100 SoftPhone		
	Minimum	Optimal
Processor	Intel® Pentium II® 400 MHz or equivalent	Intel® Pentium III® 1.3 GHz or equivalent
Memory	128 MB RAM	256 MB RAM
Hard Disk Space	15 MB	30 MB
Operating System	Microsoft® Windows® 98 Second Edition Microsoft® Windows® NT Microsoft® Windows® 2000 Microsoft® Windows® XP Microsoft® Windows® Vista	
Connection	IP network connection (Broadband, LAN or Wireless)	
Sound Card	Full-duplex or 16-bits	

2. Multimedia Requirements

The FTS-S100 SoftPhone requires both speakers and a microphone to make calls. Any of the following configurations are acceptable:

- External speakers and microphone.
- Built-in speakers and microphone.
- Dual-jack multimedia headset.
- Bluetooth® multimedia headset.
- USB multimedia headset.
- USB phone.

3. Installing the FTS-S100 SoftPhone

As part of the FreeTEL System offer, the FTS-S100 SoftPhone will be installed and configured by a FreeTEL System Technical Specialist. The installation and configuration process will be done remotely via the LogMeIn Remote Control Software. Please refer to the installation procedure of the LogMeIn Remote Control Software [www.freetelsystem.com/download/softphone.pdf] before contacting a FreeTEL System Technical Specialist for the FTS-S100 SoftPhone Remote installation and configuration.

4. Uninstalling the FTS-S100 SoftPhone

Uninstall the FTS-S100 SoftPhone as you would uninstall any other program: launch the Windows **Control Panel**, and select **Add or Remove Programs**. Follow the prompts. We do not recommend that you uninstall the FTS-S100 SoftPhone without consulting a FreeTEL System Representative, because **reinstallation and reconfiguration fees** will apply for any reinstallation of the FTS-S100 SoftPhone.
